RECOMMENDED CLINICIANS & PRACTITIONERS

Dr. Izabella Wentz introduces a revolutionary breakthrough in understanding hypothyroidism and Hashimoto's disease. Her book has been mailed to the individuals in this list. These are clinicians that have been recommended by patients.

The information in this guide is current as of March 2017. You can check for updates to the practitioner directory online [here](#):

DISCLAIMER

Dr. Wentz does not endorse or make representation as to the qualifications or business practices of any healthcare provider. All thyroid patients must be under the care of a medical doctor at all times. Any posting on this guide of a nonmedical healthcare professional is intended for patients' educational, lifestyle, dietary, and nutritional-support purposes only. Individuals using this guide should not substitute, delay, or cease medical care for any reason. Only a medical professional is trained to address the full scope of a thyroid condition.

The list of healthcare practitioners provided has been compiled based on practitioners who have shown interest in Dr. Wentz's work. There is no guarantee that these practitioners understand, embrace, or adhere to the principles of practice advocated by Dr. Wentz. Dr. Wentz's book is focused on nutritional, dietary, and lifestyle elements and do not represent a model that is considered mainstream medicine or a substitute for conventional medicine.

Individuals should use their own best judgment when receiving the services of any healthcare practitioner, especially when inquiring about the practitioner's qualifications, malpractice cases, ethics, and business practices.

The results provided are randomly produced based on the search criteria inputted by the user and may vary each time the search is performed. This guide is not a referral system or a recommendation of any healthcare practitioner. Dr. Wentz strongly advises all people to thoroughly research any healthcare professional before engaging their services.

WHY DOESN'T MY DOCTOR UNDERSTAND HASHIMOTO'S?

Every day we receive emails from patients who are frustrated with the service they receive from their clinicians. Finding a clinician that understands Hashimoto's and hypothyroidism is no easy feat, which is why I've asked for my readers to submit their own recommendations.
